Contents of Volume 4

No. 1

Original Papers

Thermal inducible expression of xylose isomerase and its performance in a hollow fiber bioreactor (SIM 00150) 1
D.W.S. Wong, L.N.H. Yee and C.A. Batt (U.S.A.)

Effect of photoreactivating light on survical of ultraviolet-light-irradiated *Streptomyces lividans* 66 (SIM 00152) 7
K. Mortelmans (U.S.A.)

Liquid holding recovery and photoreactivation of UV-induced damage in *Streptococcus lactis* (SIM 00153). 13
M. Lautier, B. Thammavongs, Y. Auffray and P. Boutibonnes (France)

Growth of *Zymomonas* on lactose: gene cloning in combination with mutagenesis (SIM 00154) . 19
S.E. Buchholz, M.M. Dooley and D.E. Eveleight (U.S.A.)

Metabolism of chlorinated methanes, ethanes, and ethylenes by a mixed bacterial culture growing on methane (SIM 00155) 29
J.M. Henson, M.V. Yates and J.W. Cochran (U.S.A.)

Secretion of the sweet-tasting plant protein thaumatin by *Streptomyces lividans* (SIM 00156) . 37
C. Illingworth, G. Larson and G. Hellekant (U.S.A.)

A peptide binding chromogenic assay for detecting glycopeptide antibiotics (SIM 00157) . . . 43
D.F. Mahoney, D.K. Baisden and R.C. Yao (U.SA.)

Biotransformation of aromatic aldehydes by *Saccharomyces cerevisae*: investigation of reaction rates (SIM 00158) 49
A. Long and O.P. Ward (Canada)

Improved strains for production of xanthan gum by fermentation of *Xanthomonas campestris* (SIM 00163). 55
M. Marquet, M. Mikolajczak, L. Thorne and T.J. Pollock (U.S.A.)

Lactic acid production by batch fermentation of whey permeate: a mathematical model (SIM 00159) 65
M.B. Leh and M. Charles (U.S.A.)

The effect of whey protein hydrolyzates on the lactic acid fermentation (SIM 00161) 71
M.B. Leh and M. Charles (U.S.A.)

Short Communications

The effect of whey protein hydrolyzate average molecular weight on the lactic acid fermentation (SIM 00160). 77
M.B. Leh and M. Charles (U.S.A.)

High solids fermentation of hydrolysates of wheat starch B in a continuous dynamic immobilized biocatalyst bioreactor (SIM 00151) 81
S.R. Parekh, S. Chen and M. Wayman (Canada)

No. 2

Original Papers

The relationship between the energetic efficiency in different micro-organisms and the rate and type of metabolite over-produced (SIM 00162) 85
J.D. Linton and A.J. Rye (U.K.)

History of yield improvements in the production of asperlicin by *Aspergillus alliaceus* (SIM 00164) 97
R.L. Monaghan, E. Arcuri, E.E. Baker, B.C. Buckland, R.L. Greasham, D.R. Houck, E.D. Ihnen, E.S. Inamine, J.J. King, E. Lesniak, P.S. Masurekar, C.A. Schulman, B. Singleton and M.A. Goetz (U.S.A.)

Carbon catabolite regulation of rebeccamycin production in *Saccharothrix aerocolonigenes* (SIM 00166) 105
K.S. Lam, J. Mattei and S. Forenza (U.S.A.)
Microbial ecology of the subsurface at an abandoned creosoote waste site (SIM 00167) 109
J.M. Thomas, M.D. Lee, M.J. Scott and C.H. Ward (U.S.A.)
Influence of acetic and butyric acid addition on polysaccharide formation by *Clostridium acetobutylicum* (SIM 00168) 121
A.M. Junelles, A. El Kanouni, H. Petitdemange and R. Gay (France)
High-temperature, salt-tolerant xanthanase (SIM 00169) 127
M.C. Cadmus, M.E. Slodki and J.J. Nicholson (U.S.A.)
Mutants of *Xanthomonas campestris* defective in secretionof extracellular enzymes (SIM 00170) 135
L. Thorne, K.K. Gosink and T.J. Pollock (U.S.A.)
Comparative testing and evaluation of hard-surface disinfectants (SIM 00171) 145
R.S. Tanner (U.S.A.)

Short Communication
Growth of *Rhizopus arrhizus* in fermentation media (SIM 00165) 155
G.S. Byrne and O.P. Ward (Ireland, Canada)

No. 3

Original Papers
Bacteriocin plasmids of *Pediococcus acidilactici* (SIM 00172) 163
S.K. Ray, M.C. Johnson and B. Ray (U.S.A.)
Comparative study of some microbial arabinan-degrading enzymes (SIM 00173) 173
S. Karimi and O.P. Ward (Canada)
The mechanism of stabilization of actinomycete foams and the prevention of foaming under laboratory conditions (SIM 00174) 181
L.K. Blackall and K.C. Marshall (Australia)
Comparison of lethalities in mouse versus goldfish for clinical and food isolates of *Aeromonas hydrophila (SIM 00175)* 189
R.L. Buchanan, M.M. Bencivengo and S.A. Palumbo (U.S.A.)
Influence of coal source and treatment upon indiigenous microbial communities (SIM 00176) . . 195
J.C. Radway, J.H. Tuttle and N.J. Fendinger (U.S.A.)
Naturally produced isocoumarins: inhibitors of calmodulin-sensitive cyclic guanosine 3′,5′-monophosphate phoshodiesterase (SIM 00177) 209
V.R. Hegde, H. wittreich, M.G. Patel, A.C. Horan, R.F. Hart, J.J. Troyanovich, M.S. Puar and V.P. Gullo (U.S.A.)
Microbial selective plugging and enhanced oil recovery (SIM 00178) 215
R.A. Raiders, R.M. Knapp and M.J. McInerney (U.S.A.)
Further studies on the biosynthesis of the evermectins (SIM 00179) 231
T.S. Chen, B.H. Arison, V.P. Gullo and E.S. Inamine (U.S.A.)
Effects of immobilization on growth, substrate consumption, β-galactosidase induction, and by-product formation in Escherichia coli (SIM 00180) 239
X. Zhang, S. Bury, D. DiBiasio and J.E. Miller (U.S.A.)
Interaction of media components during bioreactor sterilization: definition and importance of R_0 SIM 00181) 247
L.D. Boeck, J.S. Alford, Jr., R.L. Pieper and F.M. Huber (U.S.A.)

No. 4

Original Papers

The anaerobic biodegradation of *o-*, *m-* and *p*-cresol by suphate-reducing bacterial enrichment cultures obtained from a shallow anoxic aquifier 255
J.M. Suflita, L. Liang and A. Saxena (U.S.A.)

Fructose production by immobilized *Arthrobacter cells*. 267
W.A. Bazaraa and M.K. Hamdy (U.S.A.)

Altered bacterial culture density following exposure to aflatoxins 275
L.B. Weekley, P.C. Sherertz, T.D. Kimbrough and G.C. Llewellyn(U.S.A.)

Effects of organotin and organolead compounds on yeast 279
J.J. Cooney, L. de Rome, O. Laurence and G.M. Gadd (U.S.A., U.K.)

Biodegradation of a dilute waste oil emulsion applied to soil 289
R.E. Elsavage and A.J. Sexstone (U.S.A.)

Germanium toxicity in selected bacterial and yeast strains 299
M.I. Van Dyke, H. Lee and J.T. Trevors (Canada)

Effect of microbial concentration on biodegradation rates of phenols 307
D.D. Vaishnav, L. Babeu and E.T. Korthals (U.S.A.)

Sugar utilization by yeast during fermentation 315
T. D'Amore, I. Russell and G.G. Stewart (Canada)

Protoplast formation, L-colony growth and regeneration of *Clostridium beijerinckii* NRRL B-592 and B-593 and *Clostridium acetobutylicum* ATCC 10132 325
G.A. Birrer, W.R. Chesbro and R.M. Zsigray (U.S.A.)

No. 5

Original Papers

pH-mediated regulation of pyruvate catabolism in *Lactobacillus plantarum* chemostat cultures . 335
S.M. McFall and T.J. Montville (U.S.A.)

Purification and properties of xylanase from *Aurebasium* 341
T.D. Leathers (U.S.A.)

Substrate specificity, de novo synthesis and partial purification of polyphenol oxidase derived from the wood-decay fungus, *Coriolus versicolor* 349
N.L. Moore, D.H. Mariam, A.L. Williams and W.V. Dashek

Comparison of autochtonous bacteria and commercially available cultures with respect to their effectiveness in fuel oil degradation 365
W. Dott, D. Feidiieker, P. Kämpfer, H. Schleibinger and S. Strechel (F.R.G.)

Review Paper

Toxic effects of tin compounds on microorganisms 375
J.J. Cooney and S. Wuertz (U.S.A.)

No. 6

Original Papers

Efficacy of bromochlorodimethylhydantoin against *Legionella pneumophila* in industrial cooling water 403
W.F. McCoy and J.W. Wireman (U.S.A.)

Integration and expression of the *Escherichia coli* xylose isomerase gene 409
E.-C. Chan, P.P. Ueng, K.L. Eder and L.F. Chen (U.S.A.)

Enzymatic characterization of *Bacilli* from food packaging paper and board machines 419
O. Väisänen, S. Elo, S. Marmo and M. Salkinoja-Salonen (Finland)

A quantitative method for determining the efficacy of algicides in industrial cooling towers . . . 429
M.J. Goysich and W.F. McCoy (U.S.A.)
Selection of spontaneous mutants of *Yarrowia lipolytica* by inositol-less death 435
R. Bigelis and K.A. Black (U.S.A.)
Monitoring genetically engineered microorganisms in freshwater microcosms 441
R.J. Steffan, A. Breen, R.M. Atlas and G.S. Sayler (U.S.A.)
Levan production by *Bacillus polymyxa* 447
Y.W. Han (U.S.A.)
Effect of lactic acid on growth and butanediol production by *Klebsiella oxytoca* 453
N. Qureshi and M. Cheryan (U.S.A.)
Author Index 457
